## Rexnord ZeroGap 1775 Series TableTop Chain

Rexnord is pleased to announce the introduction of a ZeroGap™ 1775 Series TableTop® Chain. Designed with a short 1-inch (25 mm) pitch, 2.76-inch wide (70 mm) chain and based on the successful ZeroGap design, 1775 chain allows for tight sideflex radius with no gap opening on its surface. This enhances product conveyability resulting in less tippage, reduced debris trapping and improved safety.

This new chain is ideal to convey unstable and delicate containers like tall laminated paper bricks.

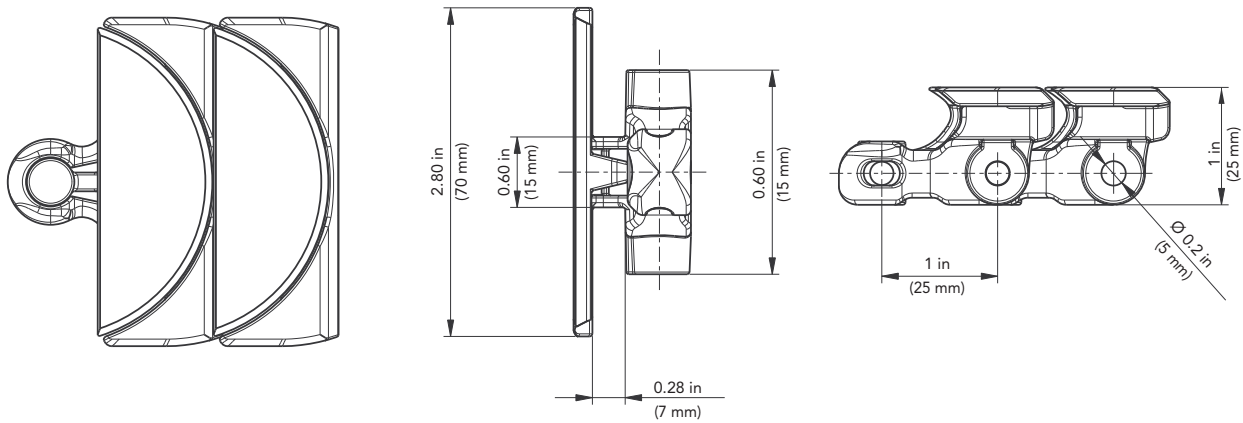

The side of the chain is designed for use with turning discs to minimize chain pull in long conveyors with many curves.

Chain Type	Code Number	Plate Width	Weight	Working Load (max.)	Backflex Radius	Sideflexing Radius
		in / mm	Kg/m	N	in / mm	in / mm
HP-ACETAL						
HP 1775	L1775634993	2.76 / 70.0	1.05	1000	3.15 / 80.0	6.0 / 150.0

Standard length: 5 m (16.4 ft) – 200 links  
Various size machined sprockets are available upon request
